DPS 8 Deploy

Introduction to DPS 8 Deploy

- DPS 8 Deploy creates the files in the folder C:\dps-tools\deploy\ from the files in the folder C:\dps-tools\ which are needed to create:
 - the complete DPS 8 installer or
 - update.db
- DPS 8 Deploy needs to be run whenever changes are made in DPS 8 by DPS 8 Editor, DPS 8 Answer Editor and/or DPSTable Editor.

DPS 8 Deploy >

Deploying A Complete DPS 8

• Before Creating a complete DPS 8 Deploy the Validation should be Reset. This checks to make sure there are no errors in the code entered in DPS 8 Editor. You can also change the Directory of where the Deploy is created. This would also require a change in the DPS 8 Setup.nsi and is not recommended.
